EDUCATION

SRMAP University (2022-2026) Amaravati, AP
Bachelor of Technology in Computer Science and Engineering *CGPA: 7.59*

Bhashyam Junior College (2020-2022) Guntur, AP
Intermediate Education (11th-12th) *89.6 %*

PERSONAL PROJECTS

Job-Connect | *React, TypeScript, NodeJs, ExpressJs, MongoDB*

- Built a full-stack job search application "Job Connect", Where Job seekers can search for jobs, and employers can post job listings.
- The frontend is styled with Chakra UI for a modern look and responsive design.
- On the backend, Express.js handles server-side logic, including user authentication. MongoDB stores user data, job listings and job applications efficiently.

AniMangaTracker | *React, TypeScript, Go*

- Desktop application designed to display trending and latest info about manga and anime.
- Built using the Wails framework in Go, this app leverages the Colly scraping framework to fetch data from popular manga and anime websites.

WeatherCLI | *Golang*

- command-line interface (CLI) tool developed in GoLang, designed to fetch real-time weather data from an API.
- The tool provides users with instant access to temperature and Air Quality Index (AQI) information for a specified location.
